Hi Liz,

Spoke with Willy Tookey about County Right-of-Ways. The County claims a 60' right of way on all county roads, however the only documentation of this is on recent surveys (which, as you know, are few and far between away from town). Otherwise, it is merely an understanding by the county that could be challenged at any time by any private land owner. It never has been challenged but I suppose an EPA water sample could be the perfect opportunity. Sounds sticky. Sure wish I had different news.

Let me know if I can be of any more help.

Lisa

Just wanted to let you know that I'll go ask Willy about public right of ways and their width, documentation, etc. on Monday. I'll be out of the office tomorrow.

Thanks.
